

Story 1

Emission of cement CO2 in each country	Sum of cement CO2 per capita every 5 years	A Graph between Coal CO2 and Flaring CO2	Emission of Cumulative CO2 per 500M population	Representation of Cement CO2 per capita and Oil CO2 per capita	A Line Graph between Gas CO2 per capita and Flaring CO2 per capita	Plotting between effusion of o..
----------------------------------------	--------------------------------------------	------------------------------------------	------------------------------------------------	----------------------------------------------------------------	--------------------------------------------------------------------	----------------------------------

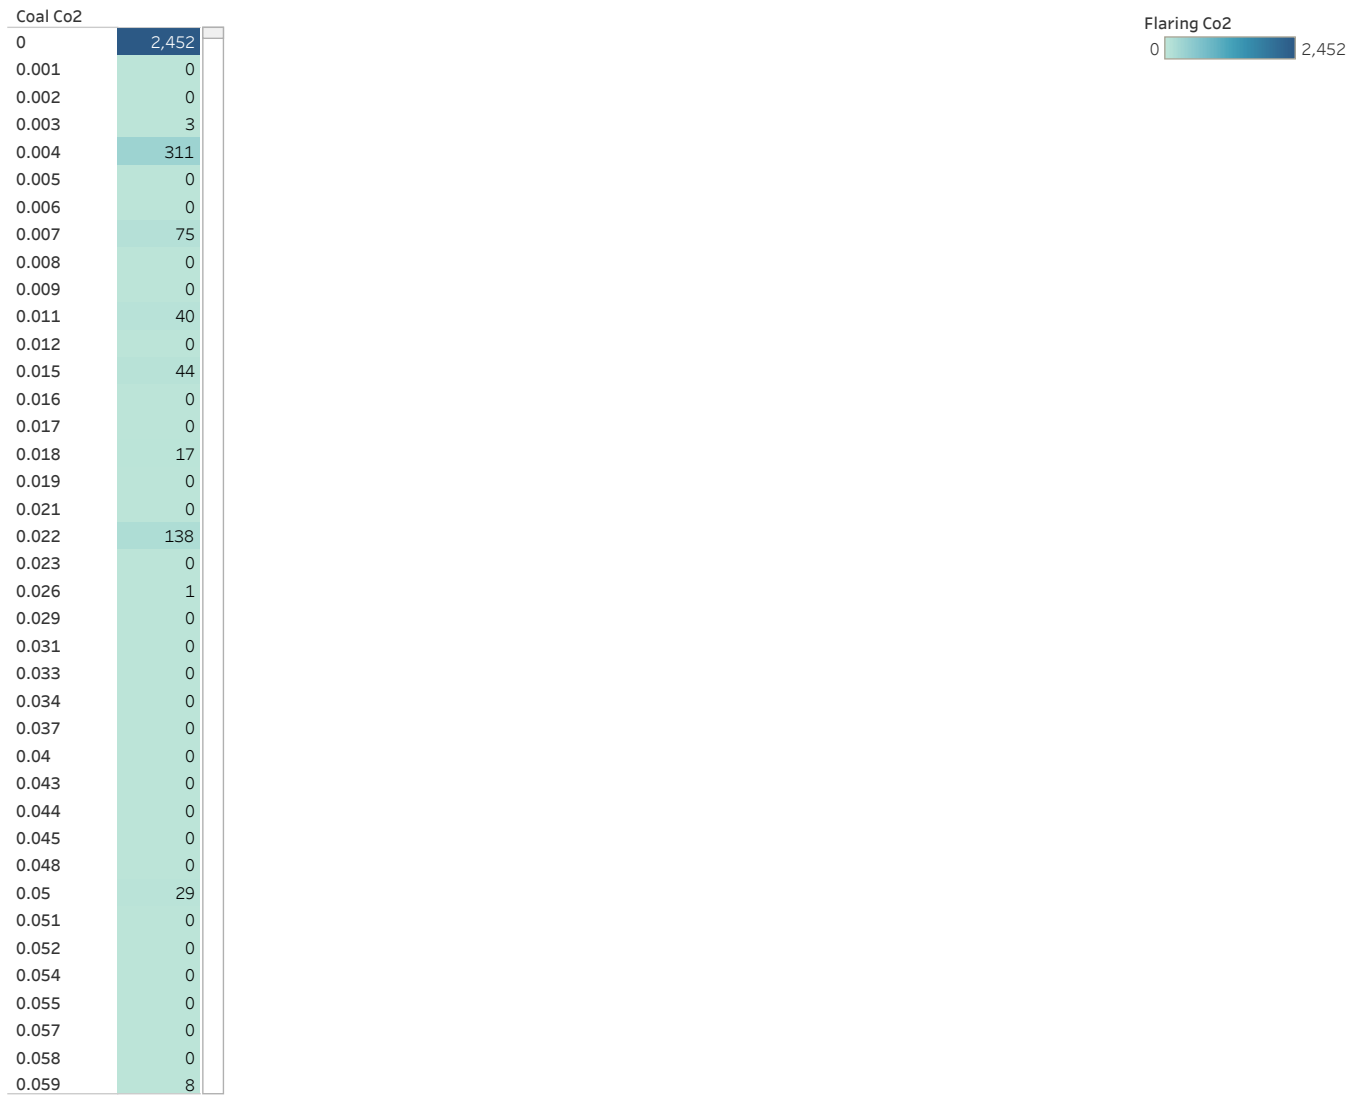

Story 1

Emission of cement CO2 in each country	Sum of cement CO2 per capita every 5 years	A Graph between Coal CO2 and Flaring CO2	Emission of Cumulative CO2 per 500M population	Representation of Cement CO2 per capita and Oil CO2 per capita	A Line Graph between Gas CO2 per capita and Flaring CO2 per capita	Plotting between effusion of o..

Story 1

Sum of cement CO2 per capita every 5 years	A Graph between Coal CO2 and Flaring CO2	Emission of Cumulative CO2 per 500M population	Representation of Cement CO2 per capita and Oil CO2 per capita	A Line Graph between Gas CO2 per capita and Flaring CO2 per capita	Plotting between effusion of other industry CO2 per year	A bar graph between outrash of flaring CO2 in each country
--------------------------------------------	------------------------------------------	------------------------------------------------	----------------------------------------------------------------	--------------------------------------------------------------------	----------------------------------------------------------	------------------------------------------------------------

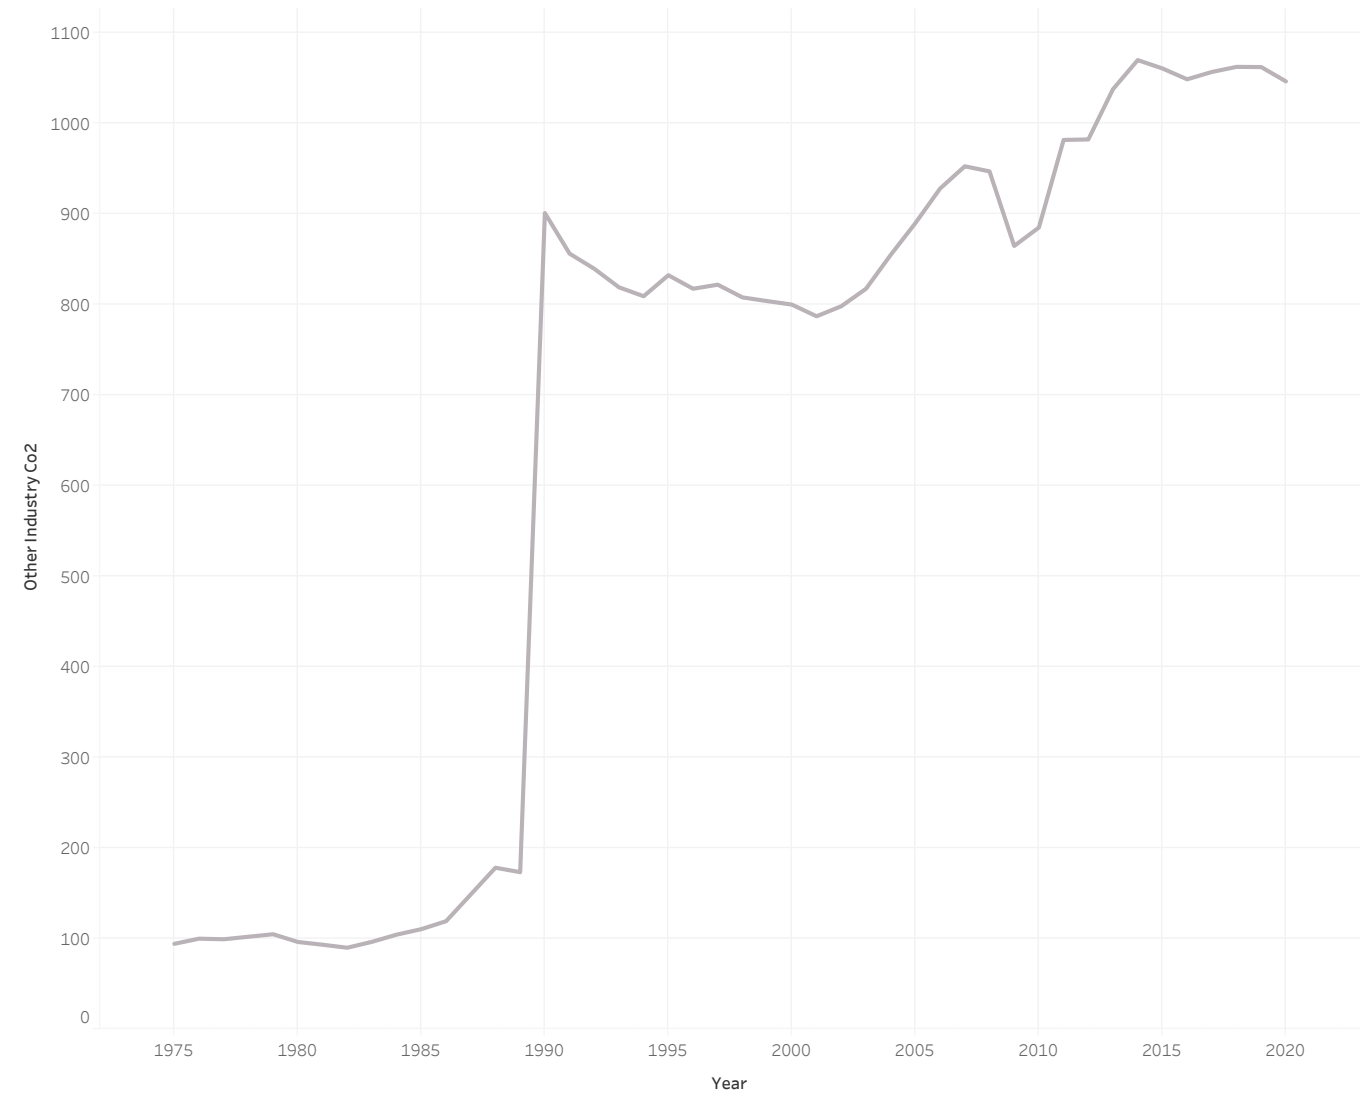

Story 1

A Graph between Coal CO2 and Flaring CO2	Emission of Cumulative CO2 per 500M population	Representation of Cement CO2 per capita and Oil CO2 per capita	A Line Graph between Gas CO2 per capita and Flaring CO2 per capita	Plotting between effusion of other industry CO2 per year	A bar graph between outrash of flaring CO2 in each country	Representation of cement CO2 per capita and oil CO2
------------------------------------------	------------------------------------------------	----------------------------------------------------------------	--------------------------------------------------------------------	----------------------------------------------------------	------------------------------------------------------------	-----------------------------------------------------

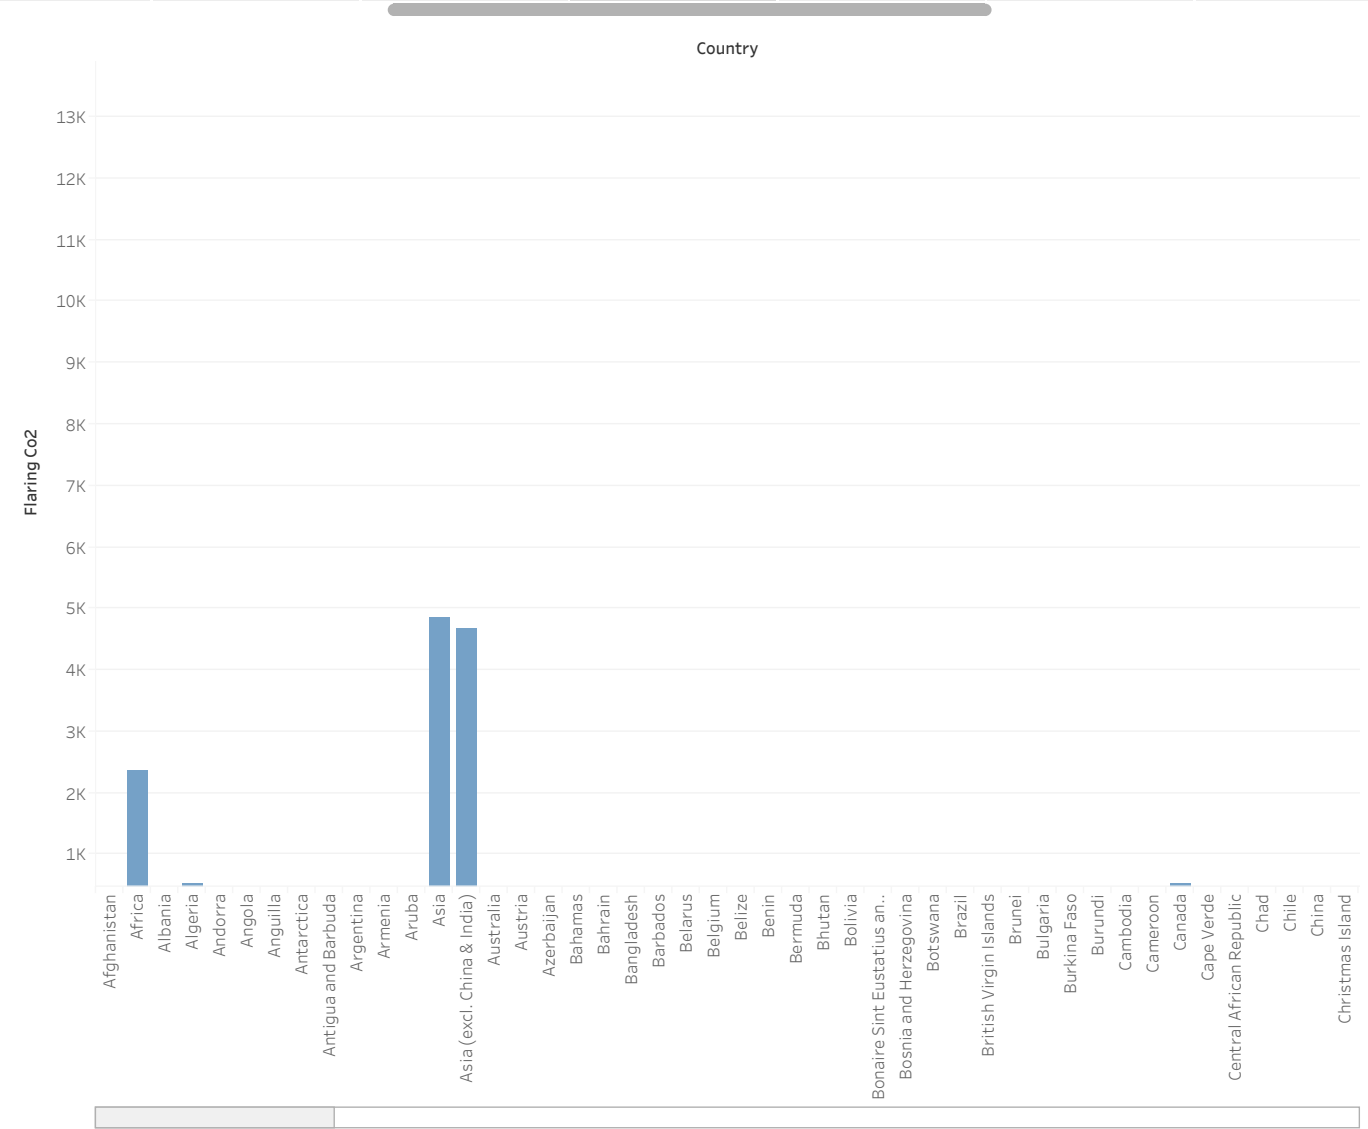

Story 1

Emission of Cumulative CO2 per 500M popul..	Representation of Cement CO2 per capita and Oil CO2 per capita	A Line Graph between Gas CO2 per capita and Flaring CO2 per capita	Plotting between effusion of other industry CO2 per year	A bar graph between outrash of flaring CO2 in each country	Representation of cement CO2 per capita and oil CO2	A Frequency polygon between flaring CO2 per capita and flari..
---------------------------------------------	----------------------------------------------------------------	--------------------------------------------------------------------	----------------------------------------------------------	------------------------------------------------------------	-----------------------------------------------------	----------------------------------------------------------------

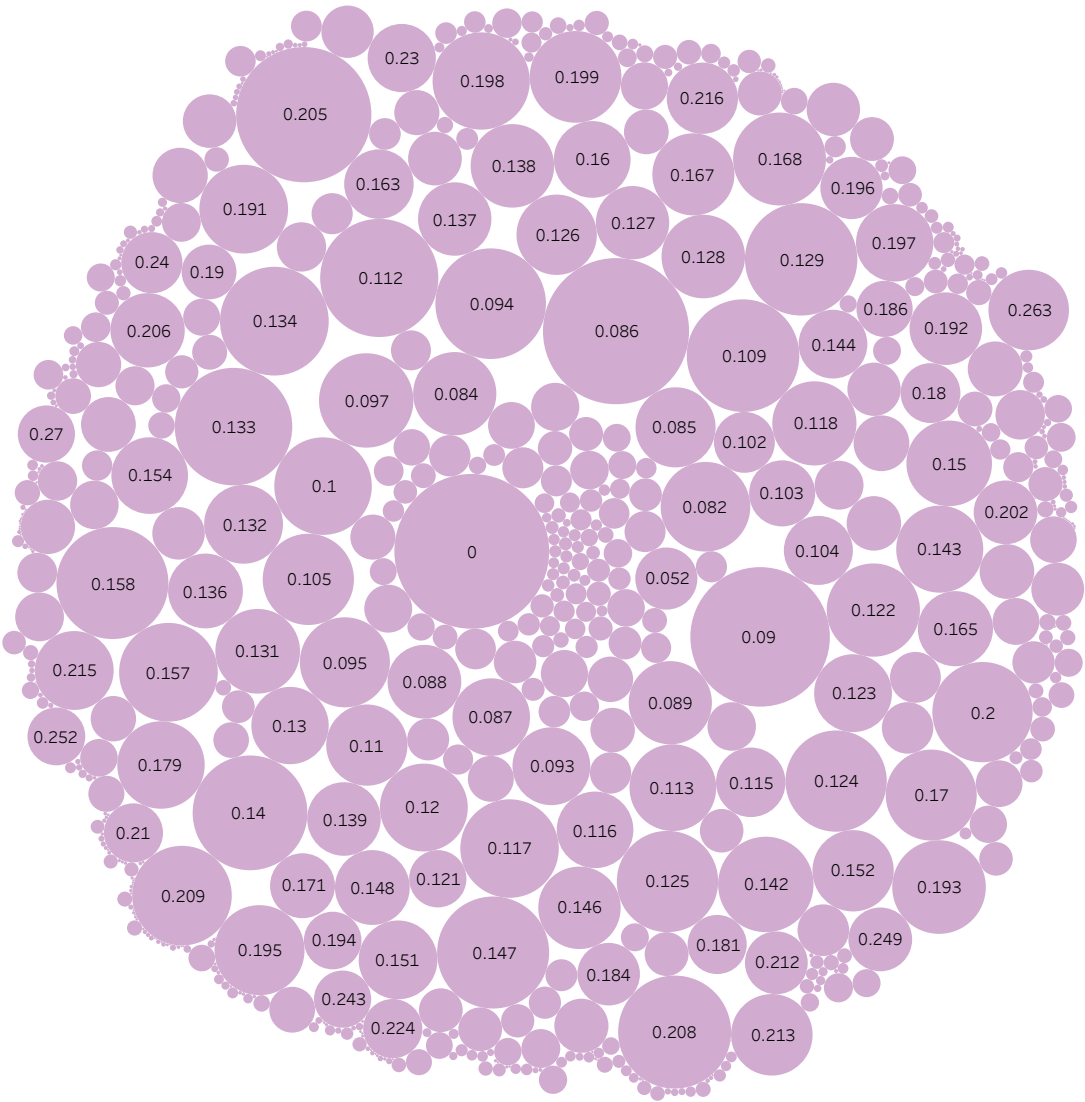

Story 1

Representation of Cement CO2 per capita and O..	A Line Graph between Gas CO2 per capita and Flaring CO2 per capita	Plotting between effusion of other industry CO2 per year	A bar graph between outrash of flaring CO2 in each country	Representation of cement CO2 per capita and oil CO2	A Frequency polygon between flaring CO2 per capita and flaring ..	A Grid between oil CO2 and oil CO2 per capita
-------------------------------------------------	--------------------------------------------------------------------	----------------------------------------------------------	------------------------------------------------------------	-----------------------------------------------------	-------------------------------------------------------------------	-----------------------------------------------

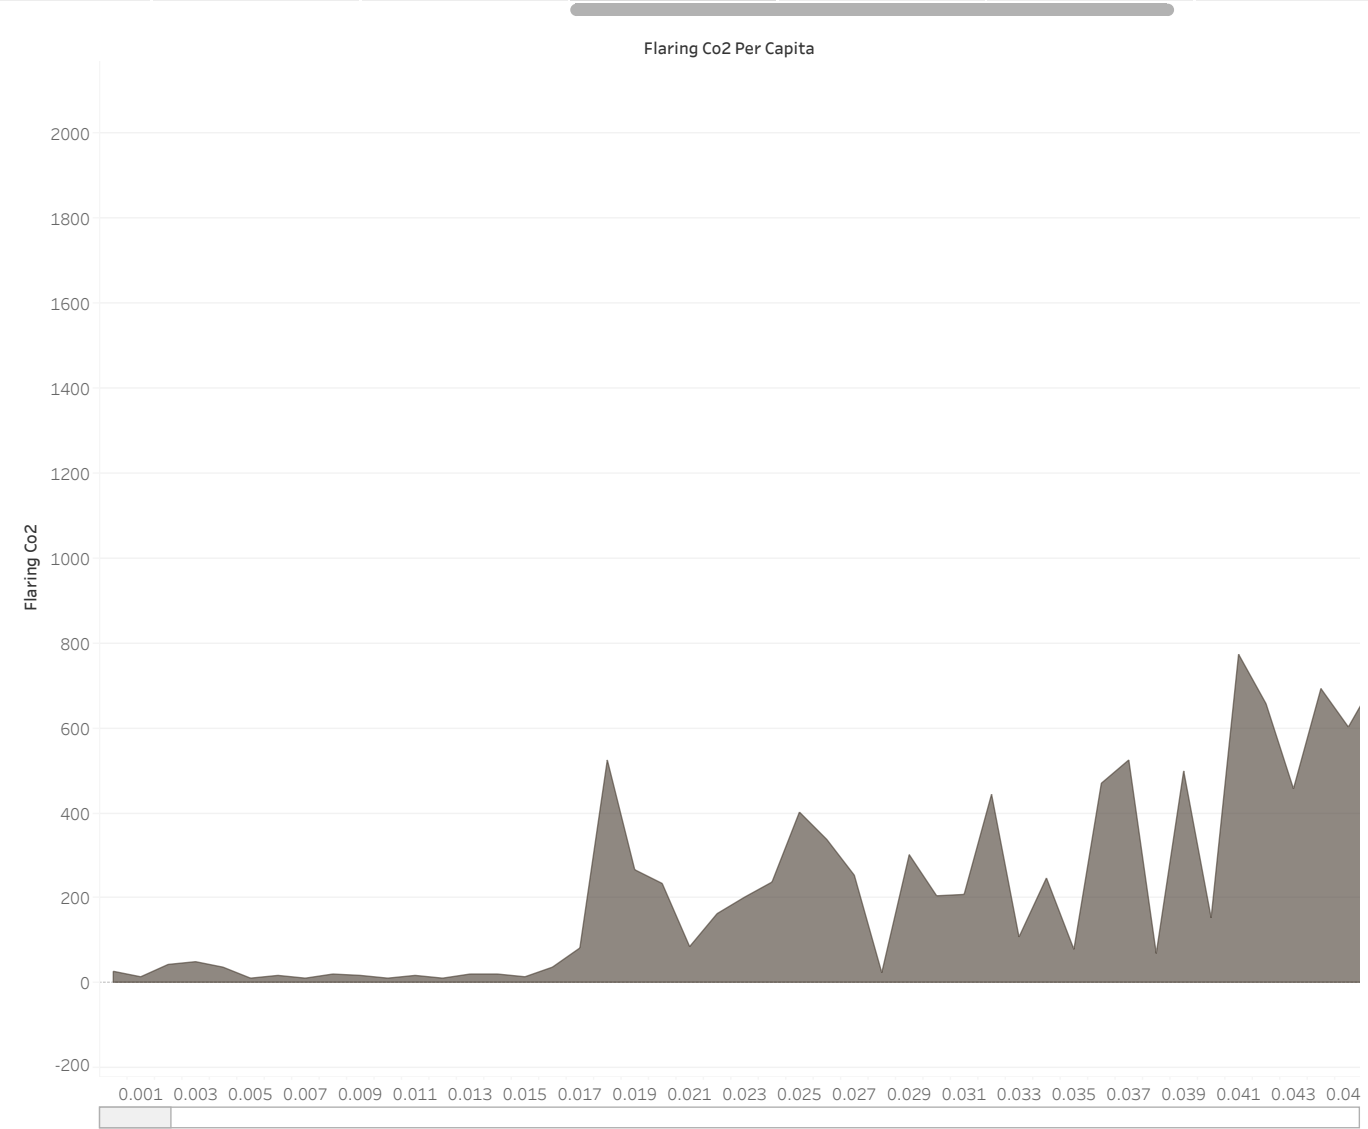

Story 1

A Line Graph between Gas CO2 per capita and Fl..	Plotting between effusion of other industry CO2 per year	A bar graph between outrash of flaring CO2 in each country	Representation of cement CO2 per capita and oil CO2	A Frequency polygon between flaring CO2 per capita and flaring ..	A Grid between oil CO2 and oil CO2 per capita	A Plot of flaring CO2 per year
--------------------------------------------------	----------------------------------------------------------	------------------------------------------------------------	-----------------------------------------------------	-------------------------------------------------------------------	-----------------------------------------------	--------------------------------

Story 1

Plotting between effusion of other industry CO2 pe..	A bar graph between outrash of flaring CO2 in each country	Representation of cement CO2 per capita and oil CO2	A Frequency polygon between flaring CO2 per capita and flaring ..	A Grid between oil CO2 and oil CO2 per capita	A Plot of flaring CO2 per year	A graph between discharge of flaring CO2 per 100B popu..
------------------------------------------------------	------------------------------------------------------------	-----------------------------------------------------	-------------------------------------------------------------------	-----------------------------------------------	--------------------------------	----------------------------------------------------------

Story 1

A bar graph
between outrash
of flaring CO2 in ..

Representation of
cement CO₂ per capita
and oil CO₂

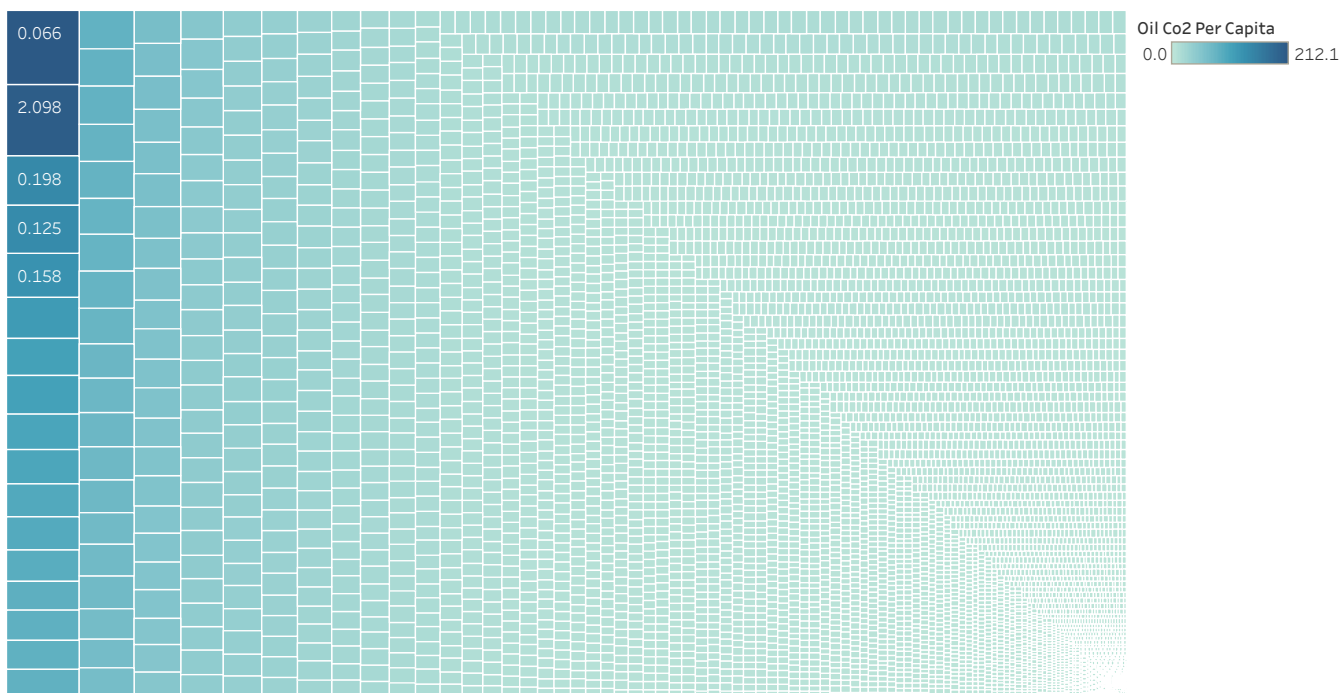

A Frequency polygon
between flaring CO2
per capita and flaring ..

A Grid between oil
CO2 and oil CO2 per
capita

A Plot of flaring CO2
per year

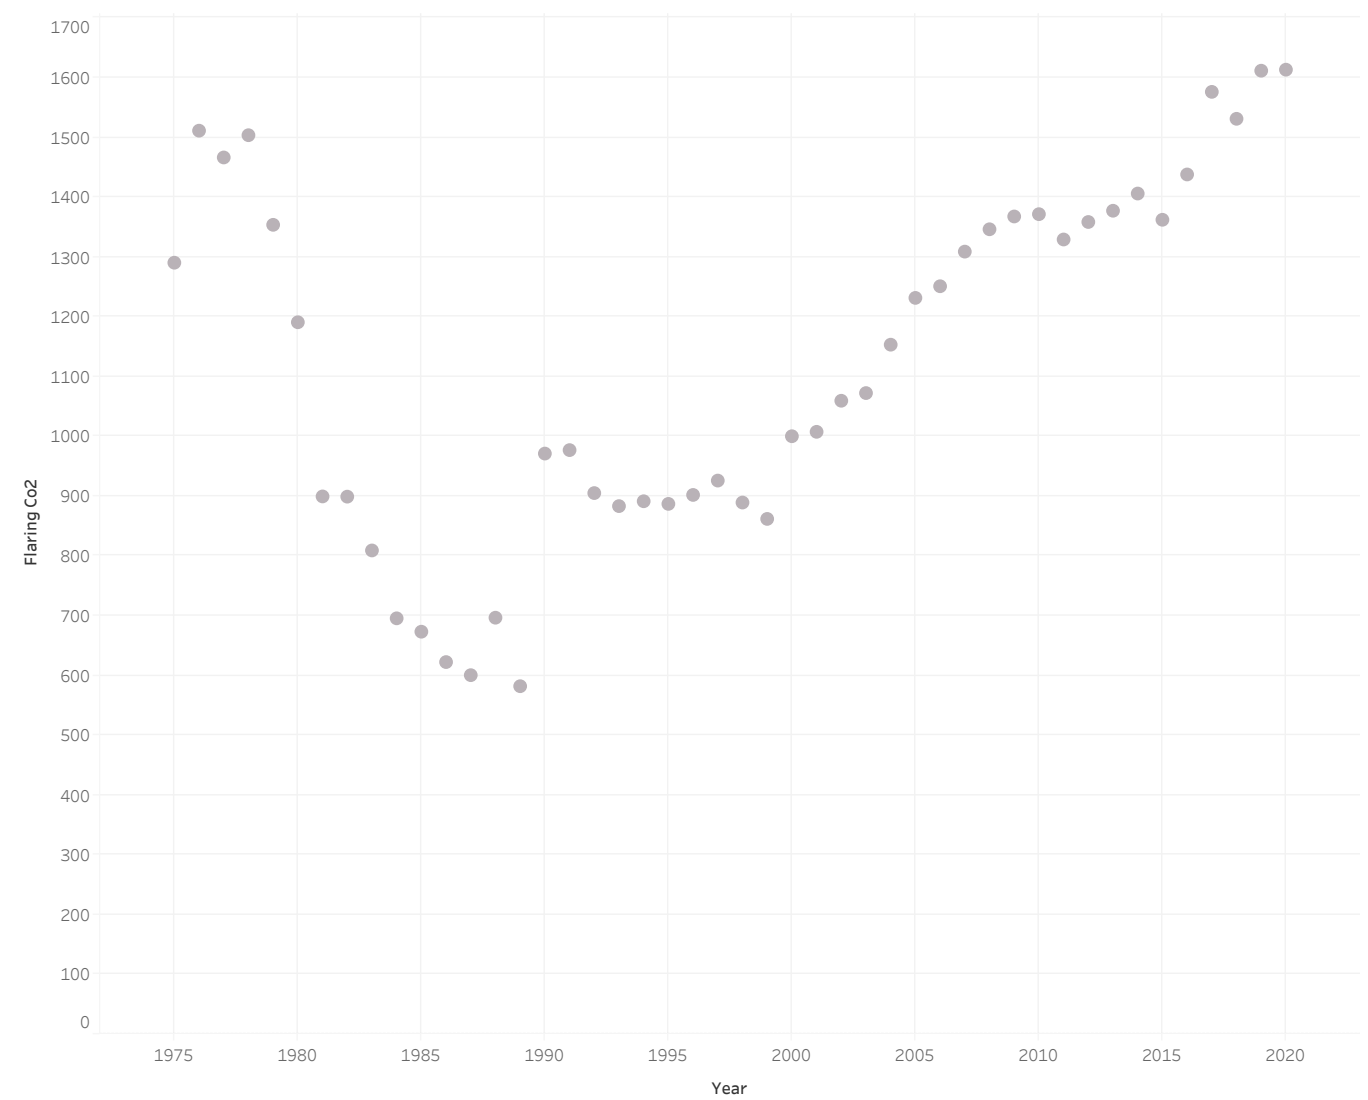

A graph between
discharge of flaring
CO2 per 100B populat..

A horizontal bar graph between other industry CO2 ..

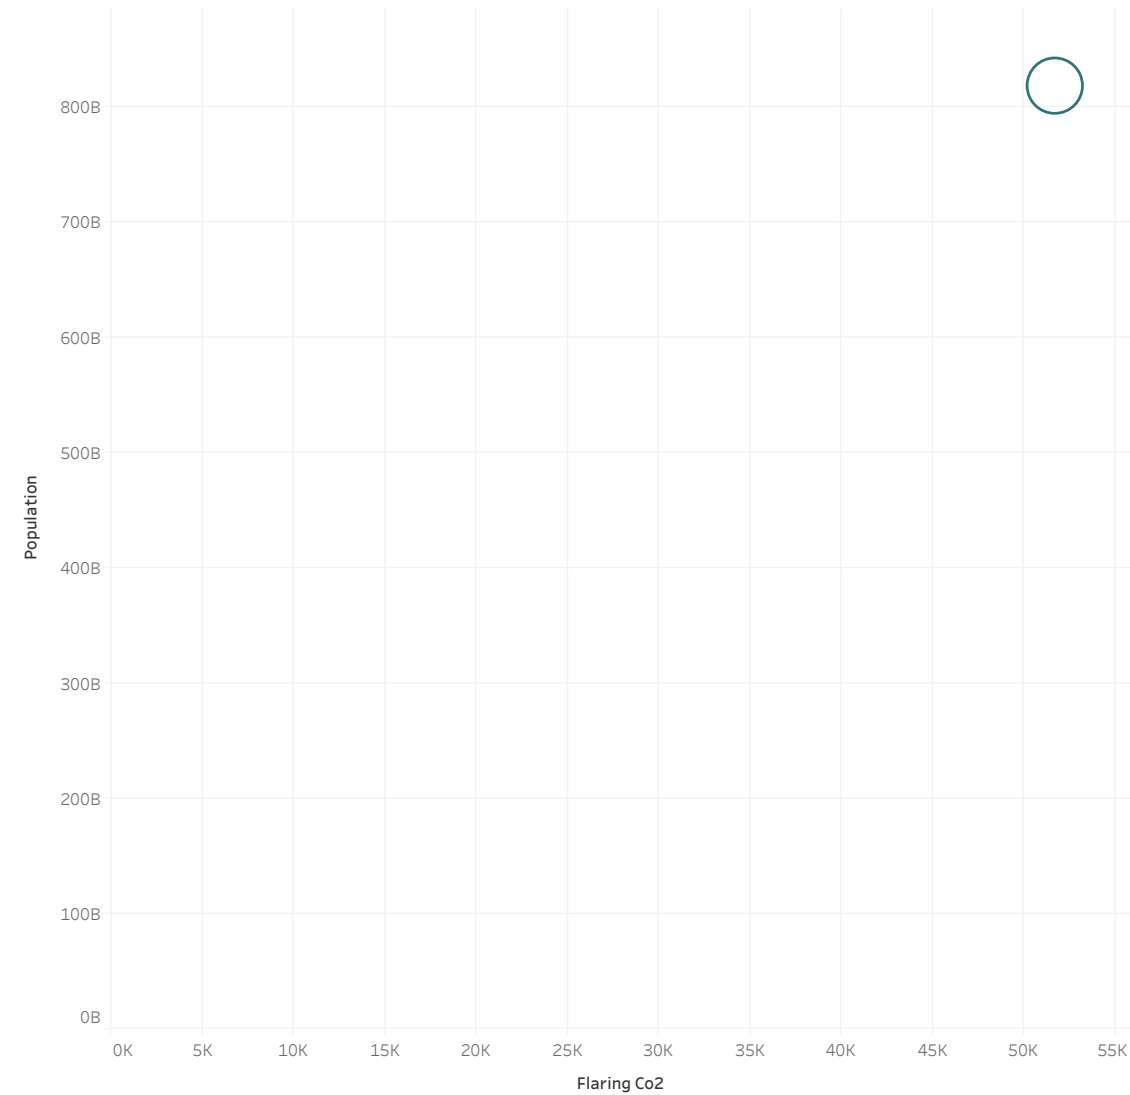

Story 1

Representation of cement CO2 per capita and oi..	A Frequency polygon between flaring CO2 per capita and flaring ..	A Grid between oil CO2 and oil CO2 per capita	A Plot of flaring CO2 per year	A graph between discharge of flaring CO2 per 100B populat..	A horizontal bar graph between other industry CO2 and cem..	Representation of count of CO2 new and Trade CO2 sha..
--------------------------------------------------	-------------------------------------------------------------------	-----------------------------------------------	--------------------------------	-------------------------------------------------------------	-------------------------------------------------------------	--------------------------------------------------------

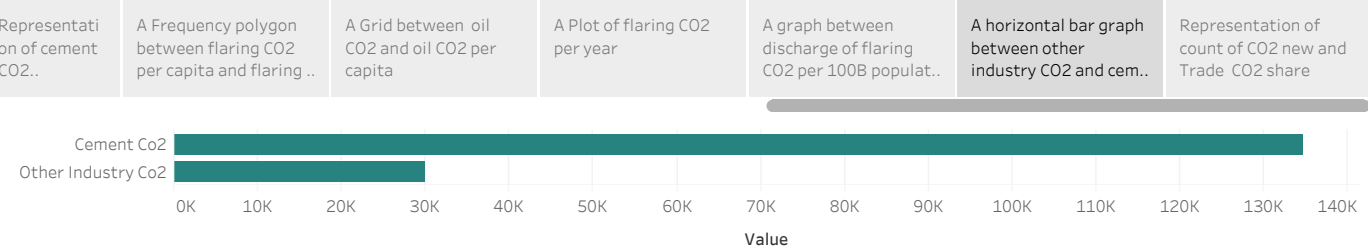

Story 1

Representati on of cement CO2..	A Frequency polygon between flaring CO2 per capita and flaring ..	A Grid between oil CO2 and oil CO2 per capita	A Plot of flaring CO2 per year	A graph between discharge of flaring CO2 per 100B populat..	A horizontal bar graph between other industry CO2 and cem..	Representation of count of CO2 new and Trade CO2 share
---------------------------------------	-------------------------------------------------------------------------	-----------------------------------------------------	-----------------------------------	-------------------------------------------------------------------	-------------------------------------------------------------------	--------------------------------------------------------------
